

## Tube Quilting

See a demonstration/tutorial of Tube Quilting on You Tube at:

<http://www.youtube.com/watch?v=vOWSp0mTTqE>

**NOTE:** The tutorial says to use 4 ¼" strips. That is NOT correct.

You will need 2 - 2 ½" strips WOF and 1 - 4 ½" strip WOF for each tube that will make 2 blocks.

Stitch the 2 ½" strips together.

Sew the 2 ½" strips to the 4 ½" strip along each long side.

Cut triangles using a 45 degree angle. Place the horizontal ruler line on the long edge seam for measurement.

Blocks can be assembled in a variety of patterns.

6 tubes will make 12 blocks.
